

SPREEZEE®

BY **NONTACT**®

Silicone Grasping Mitt

CONFIDENTIAL

© ZENCAP, INC. (Q3 2020)

- Protects hands from ALL *high-touch surfaces* (e.g., doorknobs/handles, safety rails, elevator buttons) potentially contaminated with COVID-19
- Touch/Hold/Push/Pull any unknown public surface with **minimal cross-contamination risk**
- Unique, patent-pending design “quarantines” the exposed surfaces of the mitt, so you can place it cleanly & confidently back in your pocket or bag until the next use
- Versatile *tactile distancing* tool – facilitates **essential activities** and the **reopening of offices**
- Made from high-grade antimicrobial silicone, to safeguard your hands – especially when cleaning is not feasible (*note that using Spreezee is not a substitute for handwashing*)
- Compact and one-size-fits-all; easy to slip on & off, even from inside your pocket or bag
- Sustainable PPE: Reusable, sturdy and machine washable
- Proudly created, developed and produced in the USA

Specs: 1.3 oz; 2.4" x 2.0" x 2.2"
